The Key Comprehension Routine: Comprehension Instruction Overview

This one-day workshop presents an overview of *The Key Comprehension Routine*, a routine for research-based comprehension instruction. The routine can be used by all content teachers as Tier I instruction and by intervention specialists as Tier II instruction for struggling readers. The workshop has been developed for grades 4-12 content teachers, literacy specialists, special education teachers and administrators.

Participants will leave this workshop with hands-on instructional activities as well as a manual that can be used immediately. Administrators will gain an understanding of a school-wide routine for teaching comprehension skills that provides consistency from grade to grade and subject to subject.
